## **1.0 COMPLIANCE WITH TEXAS GOVERNMENT CODE, SECTION 2102.015: POSTING THE AUDIT PLAN AND ANNUAL REPORT ON THE INTERNET**

Texas Government Code, Section 2102.015, requires state agencies and institutions of higher education to post agency internal audit plans and internal audit annual reports to the agency's website within 30 days of approval. Texas Government Code, Section 2102.015, also requires agencies to update the posting on the website to include a detailed summary of any weaknesses, deficiencies, wrongdoings, or other concerns raised by the audit plan or annual report and include a summary of the actions taken by the agency to address the issues raised.

In accordance with requirements of Texas Government Code, Section 2102.015, MJ will provide the required internal audit plan, internal audit annual report and any other required internal audit information to the Texas Lottery Commission's Executive Director who will ensure the information is posted to the TLC's website.

## **2.0 PURPOSE**

The purpose of this document is to communicate the annual risk-based audit plan as approved by the TLC's Commissioners, the methodology used to develop the annual audit plan, the timing and resource requirements necessary to complete the audit plan.

The Annual Internal Audit Plan was developed based on a prioritization of the audit universe, updating the prior years' risk assessment in light of the pandemic impacts, input from the TLC leadership team, Commissioners and guidance provided by the State Auditor's Office (SAO). Using our risk assessment framework, we identified the organizational sources for potential engagements and auditable activities; examined organizational risk factors; evaluated the proposed engagements; and prioritized the audits based on the risk rating.

## **3.0 RISK ASSESSMENT**

Risk is defined as the possibility of an event occurring that will have an impact on the achievement of objectives. Risk is measured in terms of impact and likelihood. An organization's risk exposure is determined through the identification of risks and evaluating the impact on operations and likelihood of occurrence.

Risk assessments identify an organization's exposure to business disruptions and barriers to achieving the organization's strategic goals. They serve as a tool to focus limited resources to perform evaluations of controls that are in place to limit the exposure.

In accordance with Texas Internal Auditing Act and The Institute of Internal Auditors (IIA) Standard 2010.A1, this internal audit plan is based on a documented risk assessment and input of the TLC leadership team and Commissioners. Our assessment evaluated risk exposures relating to the TLC's governance, operations, and information systems regarding the reliability and integrity of financial and operational information; effectiveness and efficiency of operations; safeguarding of assets; and compliance with laws, regulations, policies and procedures, and contracts.

The types of risk exposure relevant to the TLC are:

- *Financial Exposure:* Financial exposure exists whenever an audit area is susceptible to errors or defalcations that affect the general ledger and financial statements or the integrity and safekeeping of agency assets, regardless of the financial statement impact.
- *Compliance Exposure:* Compliance exposure exists whenever an event in an audit area could cause the agency to fail to comply with regulations mandated by state or federal authorities, irrespective of whether financial exposure exists.
- *Information Exposure:* An information exposure exists whenever there is information of a sensitive or confidential nature, which could be altered, destroyed, or misused.
- *Efficiency Exposure:* An efficiency exposure exists whenever agency resources are not being utilized in an effective or efficient manner.
- *Human Resource Exposure:* A human resource exposure exists whenever an area is managing human resources in a way, which is contrary to agency policy.
- *Environmental Exposure:* An environmental exposure exists whenever internal or external factors pose a threat to the stability and efficiency of an audit area. Examples of factors that affect environmental exposure are:
  - Recent changes in key personnel
  - Changing economic conditions
  - Time elapsed since last audit
  - Pressures on management to meet objectives
  - Past audit findings and quality of internal control
- *Public Service Exposure:* A public service exposure exists whenever an event in an audit area could jeopardize existing public services or new public services.
- *Reputational Exposure:* A reputational exposures exists whenever an event in the audit area could jeopardize the reputation of the agency and stakeholder trust.

MJ discussed the risk exposures with the TLC's leadership team. We then updated the Annual Internal Audit Plan based upon current risks facing TLC operations.
