ATTACHMENT A-2 to AMENDMENT No. 2 REVISED COST PROPOSAL

Brightstar Global Solutions Corporation

Proposer's Name

NOTE TO ALL PROPOSERS: THE COST PROPOSAL MUST BE SUBMITTED IN A SEPARATE AND LABELED SEALED ENVELOPE AND ATTACHED TO THE ORIGINAL PROPOSAL. PROPOSERS SHOULD ONLY SUBMIT ONE ORIGINAL OF THE COST PROPOSAL (NO COPIES ARE REQUIRED). IN ADDITION, PROPOSERS MUST SUBMIT THE COST PROPOSAL ON USB DRIVE IN THE SEALED ENVELOPE.

PROPOSERS MUST COMPLETE ALL SECTIONS OF THE COST PROPOSAL, INCLUDING TABLES 1, 2 AND 3 BELOW

PAYMENT WILL BE BASED ON COST PER THOUSAND TICKETS MANUFACTURED, UNLESS OTHERWISE SPECIFIED.

OPTIONS

If the services represented in the Proposal are not clearly indicated as Specified, Invited or Offered Options, the cost for such services is included in the Base Price.

Offering a required item as an option may be cause for rejection of the Proposal.

EVALUATION OF THE COST PROPOSAL

For purposes of evaluation and comparison, all cost cells for the Base Price and the following five (5) Specified Options (Full UV Coating, Metallic Ink, Fluorescent Ink, Holographic Paper Stock and Foil Paper Stock) will be evaluated. While all cost cells will be evaluated, some may have greater weight.

COMMON PRICE

The Texas Lottery's objective is to maximize revenue to the State of Texas through the selection of industry best games and those consistent with the Texas Lottery's current product mix and scratch ticket strategy. The Texas Lottery evaluates games based on a variety of criteria including, but not limited to, sales performance, ticket theme, play style, planned start date and overall fit within the overall scratch ticket game portfolio and budget authority. Using these criteria and others, the Texas Lottery also includes branded, proprietary or licensed games which it believes present the best opportunity for maximizing ticket sales and generating revenue for the State.

In working toward its objective to maximize revenue to the State of Texas through the selection of industry best games and those consistent with the Texas Lottery's current product mix and scratch ticket strategy, the Texas Lottery believes that utilizing multiple vendors for scratch ticket manufacturing and services promotes competition, optimizes vendor performance and enhances business resumption capabilities.

The Texas Lottery desires to select multiple Successful Proposers that demonstrate superior technical quality and service and that offer competitive pricing.

The Texas Lottery, through negotiations with all Apparent Successful Proposers, desires to establish common prices for the goods/services included in the Base Price and five (5) specified options (Full UV Coating, Metallic Ink, Fluorescent Ink, Holographic Paper Stock and Foil Paper Stock).

As an incentive to accept the common prices established by the Texas Lottery and at the agency's sole discretion, Successful Proposers may be offered an opportunity to produce a comparable number of games for a set period (as determined by the Texas Lottery in its sole discretion) following Contract Award. The Texas Lottery, in its sole discretion, will determine the quantity and volume of ticket production awarded to each Successful Proposer and expressly reserves the right to decrease or increase game orders consistent with the considerations in sections 1.1.7 and 1.1.8, together with other factors including, but not limited to, technical quality and customer service; however, the Texas Lottery does not intend to establish comparability by price point, ticket size, price quantities and other similar factors.

BASE PRICE

Each Proposer should complete the following matrix utilizing cost per thousand tickets and provide pricing information for each quantity and actual ticket size printed on the identified ticket stock. Prices must be proposed to two (2) decimal places (example: \$6.60/thousand). Base Price includes any and all requirements (including inks up to ten (10) colors projected to be five (5) front display colors, with one (1) display color being a full bleed, one (1) back color, three (3) overprint colors and one (1) ultraviolet ink for benday patterns), goods and services described in this RFP that are not Invited, Offered or Specified Options as referenced in this RFP. Specifically, Base Price shall include insertion of pack inserts in each pack, four color processing, expanded imaging and any additional spot colors required to produce the game tickets as represented in the executed working papers.

NOTE: Use the format provided on the attached Table 1 for your response and see RFP Section 2.10 for additional instructions.

NOTE: INTERMEDIATE QUANTITIES WILL BE DETERMINED BY INTERPOLATION
