

Texas Lottery® Retailer Cash Incentive Program (RCIP) Overview

Budgetary Limitations

A budgetary allocation over and above the standard 5% sales commission provides funding for sales performance-based incentive programs. The Texas Lottery has a limited budget for retailer incentive payments in each program. If the total payments exceed the budgetary limitation, all payments will be reduced by an equal percentage in order to not exceed the allocated program budget. Drawing entries and prizes are not affected by the budgetary limitations. Funding for retailer bonuses **does not affect** the Retailer Cash Incentive Program (RCIP).

Retailer Goals

All retailers have the same percent increase. Goals are based on year-over-year same store sales.

Tracking Retailer Status

Retailers may track their progress by viewing weekly updates on the terminal incentive report or by registering to use the Lottery Services Portal (LSP) at tx-lsp.lotteryservices.com.

LSP Reports

Weekly progress in the current Primary RCIP can be tracked on the Incentive Status – Primary report.

LSP also offers reports of all base program and drawing payments for completed Primary and Secondary RCIP.
